## CRP ENVIRO CONCRETE RELEASE OIL

### Description

CRP ENVIRO CONCRETE RELEASE OIL is a general purpose high quality release agent suitable for a wide range of applications including form, architectural, ornamental and precast work.

CRP ENVIRO CONCRETE RELEASE OIL is formulated using highly refined base stocks and additives to achieve a viscosity that minimises run off and absorption into wood or fibre board formwork plus surface active additives to provide excellent release properties, minimise blemishes and facilitate stripping.

### Features & Benefits

- Additives to enhance release properties
- Fully biodegradable, mineral oil & solvent free
- Apply by spray, brush or swab
- High flash point
- Economical in use
- Available in 200 & 20 litre units

### Applications

CRP ENVIRO CONCRETE RELEASE OIL is applied by spray, brush or swab to the formwork materials, eg: steel, wood, plywood, hardboard etc. prior to placing concrete against form.

### Typical Physical and Chemical Properties

Appearance	Clear amber oil
Flash Point	>200°C
Density @15°C	0.905kg/L

### Usage, Storage and Disposal

#### **Usage**

Before using CRP ENVIRO CONCRETE RELEASE OIL please ensure that all safety requirements as set out on the Material Safety Data Sheet are observed and adhered to, if ever in doubt please contact your sales representative who will be happy to help by addressing any concerns or questions.

**Storage** Store according to instructions given on Material Safety Data Sheets.
